

## Motorbike Chain Lube

### Description

Fully synthetic chain grease. Extremely adhesive and water resistant. Excellent creeping and lubrication behavior. Especially suitable for high-speed chains. Reduces chain elongation and provides long chain service life. Biodegradability (Test CEC L-33T-82 in 21 days > 80 %). Optimal effectiveness only with un-mixed use. We recommend cleaning the chain with Motorbike Chain Cleaner (part no. 1602) before use.

### Properties

- reduces chain elongation
- friction and wear reducing
- resistant to acceleration forces
- excellent adhesion
- especially cold, hot and splash-water resistant
- highest load-carrying capacity
- excellent penetration action
- outstanding corrosion protection

| Form                        | flüssig, aerosol / liquid,<br>aerosol              |

### Areas of application

Initial and maintenance lubrication of power train chains. Especially suitable in dusty, dirty and corrosive atmospheres. For highly-stressed and high-speed chains with and without O-rings.

### Application

Carefully clean chain with solvent such as Motorbike Chain Cleaner (part no. 1602). Apply by spraying. The lubricant attains its final consistency and adherence once the solvent has rapidly evaporated.

### Available pack sizes

|                    |                |
|--------------------|----------------|
| 400 ml Can aerosol | 20162          |
|                    | GB-F-E-USA-CAN |
