

## Snowmobil Motoroil Synthetic 2T

### Description

Snowmobil Motoroil Synthetic 2T is a fully synthetic two-stroke engine oil with modern, specially selected high-quality additives. It meets the highest requirements in the field of two-stroke engine oils. Snowmobil Motoroil Synthetic 2T is suitable for mixed and separate lubrication in air- and water-cooled engines. Ensures optimum lubrication in all operating conditions, even in extreme cold weather and therefore guarantees low-wear engine running. Thanks to residue-free combustion, the engine is kept clean and protected against wear. Depending on the manufacturer's specifications, this two-stroke engine oil can be used for mixing ratios of up to 1:100. Self-mixing.

### Areas of application

Snowmobil Motoroil Synthetic 2T was specially developed for air- and water-cooled snowmobiles with mixed and separate lubrication. In addition, this engine oil is perfectly suitable for E-Tec engines.

### Application

#### For mixed lubrication

Fill the contents of the can into the fuel- or oil tank – refill fuel, depending on mixing ratio mixing is made automatically.

#### For separate lubrication

Fill the contents of the can into the oil tank. The oil is then mixed with the fuel through the metering device.

**The mixing ratios specified by the engine manufacturers must be followed.**
